Model #: B055-001-USB

KVM Switch Accessories - USB Server Interface Module for NetDirector Matrix KVM Switches

Highlights

- Needed to connect a USB Server to the B064-Series NetDirector Matrix IP KVM switch via Cat5e cable
- Easy to install; no software needed
- Allows a maximum distance of 40 meters (130ft) from KVM to Server via Cat5 cable
- Compact and lightweight design
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

Description

Tripp Lite's USB Server Interface Module connects to the USB ports on a Server, and converts them to a single RJ45 connector. Ordinary Cat5e patch cables can then be used to connect the server to the switch ports on the Tripp Lite B064-Series, Cat5 MultiUser IP KVM switch. Use of Cat5e cables frees up space in the server cabinet that would be filled by traditional, thicker KVM cables.

System Requirements

- Server or CPU with a HD15 connector and USB type connections
- A B064-Series NetDirector Multi-user IP KVM Switch
- Cat5e/6 cable

Package Includes

- USB Server Interface Module

Features

- Eliminates the need for thicker, heavier KVM cables
- Compact, lightweight design
- Plug and Play; no software required
- No power supply required
- 130ft distance from KVM Switch
- 1 Year Ltd Warranty

Specifications

OVERVIEW
