## FEATURES

## －Compact slim body saves space

Thanks to the small surface area of 5.7 $\mathrm{mm} \times 10.6 \mathrm{~mm} .224$ inch $\times .417$ inch and low height of 9.0 mm .354 inch，the packaging density can be increased to allow for much smaller designs．
－Outstanding surge resistance．
Surge withstand between open contacts： 1,500 V $10 \times 160$ us（FCC part 68） Surge withstand between contacts and coil： $2,500 \mathrm{~V} 2 \times 10 \mu \mathrm{~s}$（Telcordia）
－The use of twin crossbar contacts ensures high contact reliability． AgPd contact is used because of its good sulfide resistance．Adopting low－gas molding material．Coil assembly molding technology which avoids generating volatile gas from coil．
－Increased packaging density
Due to highly efficient magnetic circuit design，leakage flux is reduced and changes in electrical characteristics from components being mounted close－ together are minimized．This all means a packaging density higher than ever before．
－Nominal operating power： 140 mW
－Outstanding vibration and shock resistance．
Functional shock resistance：
$750 \mathrm{~m} / \mathrm{s}^{2}\{75 \mathrm{G}\}$
Destructive shock resistance：
$1,000 \mathrm{~m} / \mathrm{s}^{2}$ \｛100G\}
Functional vibration resistance：
10 to 55 Hz （at double amplitude of 3.3 mm． 130 inch）
Destructive vibration resistance：
10 to 55 Hz （at double amplitude of 5 mm .197 inch）

## Notes：

＊1 This value can change due to the switching frequency，environmental conditions， and desired reliability level，therefore it is recommended to check this with the actual load．
＊2 The upper limit for the ambient temperature is the maximum temperature that can satisfy the coil temperature rise．Under the packing condition，allowable temperature range is from -40 to $+70^{\circ} \mathrm{C}-40^{\circ}$ to $+158^{\circ} \mathrm{F}$ ．

## ORDERING INFORMATION

Note: Tape and reel packing symbol "-Z" is not marked on the relay. " $X$ " type tape and reel packing (picked from $1 / 2 / 3 / 4-$ pin side) is also available. Suffix " $X$ " instead of " $Z$ ".
