

## Model #: SU1500XL

# SmartOnline Expandable Tower UPS System - On-line, double-conversion protection for mission critical applications

#### **Highlights**

1500VA/1200W on-line expandable tower UPS system
HID-compliant USB port, serial port and SNMP/web card slot
Maintains 120V +/-2% output during overvoltages to 138V and brownouts as low as 65V
6 AC outlets arranged in 2 load banks

#### **Description**

Tripp Lite's SmartOnline SU1500XL on-line, double conversion UPS protects critical server, networking or telecommunications equipment from blackouts, brownouts, voltage fluctuations and surges. Large-capacity 1.5kVA/1200W UPS continuously converts incoming AC to DC, then back to perfect sine wave AC output at 120V AC (+/-2%). Removes harmonic distortion, fast electrical impulses, frequency fluctuations and other hard-to-solve power problems not addressed by other UPS systems. True sine wave output and zero transfer time provides guaranteed compatibility with all equipment types. Includes 6 UPS-supported outlets. 2 load banks, each with 3 outlets, can be independently controlled via a software interface to selectively reboot remote equipment or automatically shed less critical loads to extend battery runtime for the most critical equipment. Battery backup time can be extended with the addition of multiple external battery packs. Includes slot for internal SNMP/web card, plus DB9 enhanced serial monitoring port for unattended shutdown, remote control and monitoring of UPS system and power data. HID-compliant USB interface enables integration with built-in power management and auto shutdown features of Windows and Mac OS X. Includes Tripp Lite's PowerAlert UPS Power Management Software. Compatible with Tripp Lite's Watchdog Service Monitoring/Rebooting Software. Attractive all-black upright tower format.

Fault tolerant auto-bypass

#### Applications

Ideal for protection of mission-critical 120V servers, networking equipment and sensitive electronics. Common applications include corporate or departmental servers, workstations, hubs, routers, bridges, CAD/CAM workstations, concentrators, IP telephony and traditional PBX switching systems.

#### Package Includes

SU1500XL UPS System
PowerAlert Software
USB, DB9 and EPO cabling
Owner's manual with warranty information

#### **Features**

True on-line, double conversion UPS provides constant, pure sine wave AC output

Maintains continuous operation through blackouts, brownouts, voltage fluctuations and surges with zero transfer time

Removes harmonic distortion, electrical impulses, frequency variations and other hard-to-solve power problems

Accepts input voltages between 80V and 138V (65V to 138V at loads under 70%), regulating output to 120V AC +/-2%

1500VA/1200W output capacity with 6 NEMA 5-15R outlets

Two built-in, individually switchable load banks, each with 3 outlets, can be controlled via software interface to selectively reboot remote equipment or automatically shed less critical loads to extend battery runtime for the most critical equipment

Standard internal battery set provides 14 min. runtime at half load and 4.5 min. at full load

Runtime is expandable with BP48V24-2U (limit 1) or BP48V60RT3U (multi-pack compatible) external battery packs

Attractive all-black upright tower format

Simultaneous communications via HID-compliant USB port, DB9 serial port, and SNMP/web card slot

HID-compliant USB interface enables integration with built-in power management and auto shutdown features of Windows and Mac OS X DB9 serial network interface supports RS-232 and contact closure messaging

Slot for optional SNMP/web card (part# SNMPWEBCARD)

Included PowerAlert UPS Power Management Software and cabling provides monitoring of in-depth site power conditions, full UPS status and fault warnings, output load level and load bank power control

Compatible with Tripp Lite's WatchDog Service Monitoring/Rebooting Software (part # WATCHDOGSW)

Fault tolerant auto-bypass maintains continuous utility output to connected equipment, even in cases where the UPS is overloaded or suffers an internal failure that requires service

Diagnostic LEDs

Built-in RJ-11 EPO (Emergency Power Off) jack allows connection to site emergency power off systems

2-year warranty

#### **Specifications**

| SYSTEM OVERVIEW                        |  |
|--|--|
| Voltage compatibility                  | 120V (110V, 100V)  |
| Frequency<br>compatibility             | 50/60 Hz compatible  |
| OUTPUT                                 |  |
| Output VA                              | 1500   |
| Output watts                           | 1200   |
| Output nominal voltage                 | 120V factory default (110, 100V)   |
| Output voltage regulation              | Maintains full-time sine wave output within 2% of 120V, less than 5% total harmonic distortion   |
| Output frequency regulation            | Regulates line frequency to 50/60Hz +/- 0.05Hz   |
| Outlet quantity / type                 | 6 x NEMA 5-15R   |
| Customized load management receptacles | 2 individually controlled banks, each with 3 outlets, support automated load shedding and remote reboot on demand of locked network devices. Configurable via PowerAlert Software to automatically switch off optional loads to increase available runtime for servers and other critical devices. |
| Overload protection                    | 20A breaker  |
| INPUT                                  |  |
| Maximum input amps                     | 12A (120V) / 14A (110V) / 15.4A (100V)   |
| Input connection type                  | NEMA 5-15P   |
| Input cord length                      | 10 ft.   |
| Recommended<br>Electrical Service      | 15A 120V   |
| BATTERY                                |  |
| Full load runtime                      | 4.5 min.   |
| Half load runtime                      | 14 min.  |
| Expandable battery runtime             | Runtime is expandable with BP48V24-2U (limit 1) or BP48V60RT3U (multi-pack compatible) external battery packs  |

| DC system voltage                  | 48 VDC   |  |
|------------------------------------|--|--|
| Typical battery lifespan           | 4-6 years typical  |  |
| Battery recharge rate              | 4-6 hours to 90%   |  |
| Replacement<br>Battery Cartridge   | RBC48-SUTWR  |  |
| VOLTAGE REGULATION                 | ON   |  |
| Voltage regulation description     | On-line, double-conversion power conditioning maintains output within 2% of 100/110/120 volts at all times   |  |
| Overvoltage correction             | Maintains output of 120V +/-2% during overvoltages to 138VAC   |  |
| Brownout correction                | Maintains output of 120V +/-2% during undervoltages to 80VAC   |  |
| Severe brownout correction         | Maintains output of 120V +/-2% during undervoltages to 65VAC (during load conditions of 70% or less)   |  |
| LEDS ALARMS & SWI                  | TCHES  |  |
| Front panel LEDs                   | 14 status LEDs offer LINE POWER, ONLINE, BYPASS, ON BATTERY, OVERLOAD, BATTERY LOW, REPLACE BATTERY and FAULT status information. Also includes 4 LED meters for LOAD LEVEL / BATTERY LEVEL display (Battery level readout requires pressing "test" key) |  |
| Alarms                             | Multi-function audible alarm offers notification of UPS start, backup operation, low battery warning, overload, UPS far and remote shutdown  |  |
| Switches                           | Includes combination main power on/test and main power off switch  |  |
| SURGE / NOISE SUPP                 | RESSION  |  |
| AC surge suppression               | 570 joules   |  |
| AC suppression response time       | Instantaneous  |  |
| Dataline suppression               | RJ45 single-line tel/Ethernet  |  |
| EMI / RFI AC noise suppression     | Yes  |  |
| PHYSICAL                           |  |  |
| Shipping weight (lbs)              | 56   |  |
| Shipping weight (kg)               | 25.2   |  |
| Shipping<br>Dimensions<br>(HWD/in) | 15.25 x 13 x 24  |  |
| Shipping<br>Dimensions<br>(HWD/cm) | 38.7 x 33 x 61   |  |
| Unit weight (lbs)                  | 49.3   |  |
| Unit weight (kg)                   | 22.2   |  |
| Unit Dimensions<br>(HWD/in)        | 10.25 x 9 x 19.5   |  |
| Unit Dimensions<br>(HWD/cm)        | 26 x 23 x 49.5   |  |
| Material of construction           | Steel  |  |
| Form factors supported             | Tower  |  |
| Cooling method                     | Dual fans  |  |
|                                    |  |  |

| Battery Access                                      | Supports battery access and hot-swap replacement without powering off connected equipment   |  |  |
|---|---|--|--|
| ENVIRONMENTAL                                       |   |  |  |
| Operating<br>Temperature                            | +32 to +104 degrees Fahrenheit / 0 to +40 degrees Celsius   |  |  |
| Storage Temperature                                 | +5 to +122 degrees Fahrenheit / -15 to +50 degrees Celsius  |  |  |
| Relative Humidity                                   | 0 to 95%, non-condensing  |  |  |
| COMMUNICATIONS                                      |   |  |  |
| Network monitoring port                             | USB and DB9 serial ports. Built-in DB9 port offers both enhanced RS-232 enabled monitoring data, plus contact closure monitoring ability. HID-compliant USB interface enables integration with built-in power management and auto shutdown features of Windows and Mac OS X |  |  |
| Software and cabling included                       | PowerAlert Software CD-ROM and complete cabling   |  |  |
| SNMP compatibility                                  | Slot for optional SNMPWEBCARD accessory (part # SNMPWEBCARD)  |  |  |
| WatchDog<br>compatibility                           | Compatible with Tripp Lite's Watchdog system service to restore operation to locked equipment through soft reboot of applications/OS or hard power off/on reboot of connected equipmentideal for unattended kiosk applications  |  |  |
| LINE / BATTERY TRAN                                 | NSFER   |  |  |
| Transfer time from<br>line power to<br>battery mode | Zeroâ"UPS continuously converts incoming AC to DC, then back to AC. When commercial power is interrupted, Ul maintains continuous output from battery reserves with absolutely no disruption in output AC power   |  |  |
| Low voltage transfer to battery power               | Maintains continuous operation during undervoltages as low as 80V (65V during load conditions of 70% or less). Below the switchover point, output is supported from battery-derived AC power  |  |  |
| High voltage<br>transfer to battery<br>power        | Maintains continuous operation without using battery power during overvoltages to 138V. Above this point, output is supported from battery-derived AC power   |  |  |
| SPECIAL FEATURES                                    |   |  |  |
| EPO port  | Built-in RJ-11 EPO jack with included cabling   |  |  |
| Cold Start  | Inverter can be cold started to enable temporary AC output during a power failure   |  |  |
| Appearance  | Attractive all-black tower housing  |  |  |
| BATTERY PACK ACCI                                   | ESSORY (optional)   |  |  |
| Battery Pack<br>Accessory (optional)                | BP48V24-2U (limit 1) or BP48V60RT3U (multi-pack compatible)   |  |  |
| CERTIFICATIONS                                      |   |  |  |
| Certifications                                      | Tested to UL1778 (USA), CSA (Canada), RoHS-compliant, Class A (Emissions), NOM (Mexico), FCC Part 68/Industry Canada  |  |  |
| WARRANTY  |   |  |  |
| Product warranty                                    | 2 years   |  |  |
|   |   |  |  |
| Optional coverage                                   | 3-5 year extended warranty coverage, plus next-day and on-site warranty coverage for select opportunities. For more information, contact Tripp Lite   |  |  |
