

Liquid Solder Flux

Completely non-corrosive liquid solder flux consisting of a solution of special rosin in alcohol. Contains no traces of acids or chlorides and is completely safe to use on even the most delicate electronic equipment.

Part No. 10-4202 2 fl. oz. Bottle

Part No. 10-4216 16 fl. oz. Bottle

Soldering Paste

A strong flux for soldering sheet metal parts, bus wires to steel chassis, tinning and cleaning of soldering iron tips, etc. Not recommended for electronic or printed circuit soldering.

Part No. 10-1207 2 fl. oz. Bottle

Solder Flux

A flux for all metals, as effective as acid or chloride types but non-corrosive. Solders even hard-to-solder metals such as aluminum, zinc-based alloys, steel, etc. Ideal for soldering bus and ground wires to aluminum and steel chassis, to hermetically seal lids to metal cases, for pot-tinning of copper and brass parts, etc. Not recommended for electronic wiring, including printed circuits.

Part No. 10-200 2 fl. oz. Bottle

Water Removable Soldering Paste

Lubricates, cleans, fluxes and rinses away.

Part No. 10-202 2 fl. oz. Bottle

Static Null

Neutralizes and prevents static electricity in a wide variety of applications. May be used on circuit boards, carpeting, clothing, cabinetry or generators of static electricity. One application lasts for weeks. An excellent maintenance area product for use on test equipment, circuits being serviced and work surfaces.

Part No. 19-1004 8 oz. Aerosol

High Voltage Putty

Silicone rubber compound with excellent insulating characteristics. It will never harden, will not shrink and has good adhesive properties. Provides a corona and arc suppressing coating in high voltage systems. Especially useful for coating sharp points, edges or corners. Also useful to form gaskets and seals where a putty-like, non-hardening property is desired. (Approx. 550 Volts/MIL Di-electric strength).

Part No. 10-8880 1-1/4 oz.
(1" wide x 1/4" thick x approx.
18" in length)

Part No. 10-8882 1/2 lb. tub

SPECIALTY CHEMICALS (Cont.)

Chem

Silicone Dielectric Compound

Soft, inert silicone grease with excellent dielectric properties. Usable over a wide range of temperatures. Its consistency is vaseline-like and it is white opaque in color. It provides an excellent dielectric coating which excludes moisture and prevents high voltage arcing. Applicable to components in the high voltage section of TV receivers. Protects ignition systems in automobiles and boats, in addition to providing an outstanding corrosion resistant coating on exposed metal surfaces, such as TV antenna terminals as well as general rustproofing. This compound also makes an excellent lubricant for rubber or plastic.

Part No. 10-8101 1 fl. oz. Tube
N.S.N. 6850-00-268-7963

Part No. 10-8102 1 gal. Can

Part No. 10-568 1/3 fl. oz. Chem-O-Jector

Anti-Seize Compound

Specifically engineered to resist seizing and corrosion on any threaded surface up to 2100°F. This is an excellent product for eliminating seizing of soldering iron tips, especially threaded types. Will prevent seizing, "cold-welding" and fretting corrosion of all metal threads; a preliminary degreasing with Trichloroethane or similar solvent is suggested for maximum benefit. Apply by dipping, brush, etc.

Part No. 10-1230 1 fl. oz.

Belt & Drive Non-Slip

Prevents slippage in mechanical or electro-mechanical devices which are driven with cords, belts, pulleys and drives. Restores proper functions on belts and drive pulleys in turntables, record changers and tape recorders, especially where the rubber parts have hardened and/or become slick and cause slippage.

Part No. 10-8602 2 fl. oz. Bottle w/ Brush

Re-Grip

Cleans and revitalizes hardened and glazed rubber drives and belts of record changers, etc. Gives racing models more grip. Eliminates slipping and squealing. Brings new life to dried rubber drive belts. Reduces the need to replace belts, saving maintenance downtime.

Part No. 19-729 1 fl. oz. Bottle

Part No. 19-780

Part No. 19-781

Squeeze Bottle & Squeeze Riser

These reliable bottles accurately dispense solvents in the required amounts in the proper location. For use with GC Bulk Chemicals, wipes and brushes. Can be used safely with all GC chemicals. The squeeze riser professionally dispenses chemicals without using an aerosol.

Part No. 19-780 4 oz. Squeeze Bottle

Part No. 19-781 4 oz. Squeeze Riser

GC Touch Dispenser

Stops waste. Dispense only as much fluid as needed for the job. Saves time and effort. No stopper or cap to remove. One-handed touch on the dish dispenses the required amount of fluid, leaving the other hand free. Prevents contamination. Liquid in bottle stays clean until used. Fluid pumped into dish doesn't drip back into bottle. Hinged lid protects dish when not in use. Use with all GC cleaner/degreaser and deflusing solvents. Not for use with iodine, acids or bases.

Part No. 19-764 4 oz. Bottle with Pump

Part No. 19-766 6 oz. Bottle with Pump

Part No. 19-768 8 oz. Bottle with Pump

1oz. Glass Bottle

GC glass bottle with plastic cap allows safe storage for when you want to work with smaller quantities of oils, contact cleaners, and other liquids.

Part No. 10-285 1 oz. Glass Bottle with Cap
