

Space-Saving Micro Photoelectric Sensors with U-Shaped, Through-Beam Detection

Omron's EE-SX family offers the industry's
most complete selection of micro sensors

-
- » Easy to install
 - » Non-contact presence/absence/position detection
 - » Fast response
 - » Reliable switching with no contact bounce
 - » Highly visible indicators for monitoring
-

Automation...simple...powerful.

Easy to Install Low-Cost Solution for Presence/Absence/Position Detection

Omron's EE-SX Series photomicrosensors offer a low-cost, non-contact and high-speed solution for Presence/Absence/Position Detection. They eliminate contact bounce and wear typical of snap action switches used for these applications. Choose from 3 Types—Standard EE-SX47/67 Series; Thin EE-SX77/87 Series; Compact EE-SX91 Series.

Key Features

EE-SX47/67 – Conventional type offers versatility in multiple body types and connection options

- Small size enables space savings and fast installation
- 8 different body shapes match a wide range of applications
- Separate connector, pre-wired junction connector or pre-wired 1 m cable models available
- Flexible robot cable is standard for pre-wired models
- Easy operation monitoring with bright indicator light
- Models available with switching capability between Dark-ON or Light-ON operation

EE-SX77/87 – Thin profile offers solution for dense mounting conditions

- Ultra-thin body and sensing head is 2.4 mm more narrow than conventional types
- Standard, L-shaped and T-shaped models available to match a wide range of applications
- All models have a pre-wired 2 m flexible robot cable as a standard feature
- Easy operation monitoring with bright indicator light visible from both sides
- Notched optical axis indicator allows fine-tuning of sensing position setup
- Separate models for Dark-ON or Light-ON operation
- Fully resistant to dusty environment with IP60 enclosure rating

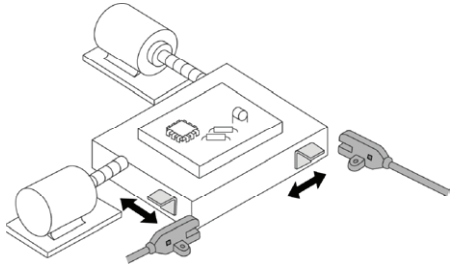

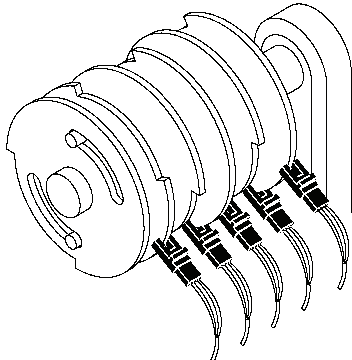

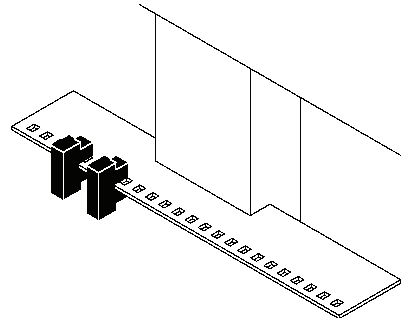

EE-SX91 – Ultra-small size offers solution for space constrained locations

- Ultra compact for maximum space savings
- 5 different body shapes to match a wide range of applications
- Indicator light can be viewed from 4 directions for easy of installation and operation
- Mountable with either M3 or M2 screws for ease of installation (competing products offer only M2 screw mounting)
- Separate pre-wired junction connector or pre-wired 2 m cable models available
- Flexible robot cable is standard for all models
- Each model has Dark-ON or Light-ON output capability

Typical Applications

X-Y table or robot positioning – home position and end-of-travel	Cam-timer switching—no contact bounce or wear	End/beginning of perforated or embossed tape or film
		
Use EE-SX770 or EE-SX870 pre-wired models for easy monitoring, indicator visible on two sides. Plug-in EE-SX670 and EE-SX470 allow servicing without rewiring.	Use EE-SX670 or EE-SX470. For single-side mounting, use EE-SX673 or EE-SX473. For narrow spaces, choose EE-SX914 U-shaped models.	Use two EE-SX670 or EE-SX470 to signal position and change of direction. For tight spaces, choose EE-SX910.

- Pick and Place Machines
- Robotic Applications

- Pharmaceutical
- Semiconductor Back End

- Electronics Manufacturing/Packaging
- Clean Room Environment Applications

Specifications

Type	EE-SX47/67	EE-SX77/87	EE-SX91
Sensing distance	5 mm (slot width)		
Sensing object	Opaque: 1.2 x 0.8 mm min.		
Differential distance	0.025 mm max.		
Light source	Infrared LED		
Supply voltage	5-24 VDC		
Current consumption	35 mA max. (NPN models), 30 mA max. (PNP models)		15 mA max.
Operating ambient	-25° to 55°C		
Enclosure rating	IP50	IP60	IP50
Housing material	Polybutylene terephthalate (PBT)

Connectors and Cordsets

EE-SX47/67 Accessories for Models with Connectors (Order Separately)

Type	Cable length	Remarks	Model
Connector	-	-	EE-1001
		Includes built-in lock mechanism	EE-1009
Connector with cable	2 m	-	EE-1006
		Includes built-in lock mechanism	EE-1010
Connector with robot cable	2 m	Includes built-in lock mechanism	EE-1010-R
Connector hold-down clip	-	For EE-1006 only.	EE-1006A

Accessories for Models with Connectors (Order Separately)

Type	Cable length	Remarks	Model
Connector with lock	2 m	For EE-SX67□-C1J-R, EE-SX91□-C1J-R, 4-core robot cable	EE-1016-R-1
