Final Product/Process Change Notification (FPCN)

ON Semiconductor will consider this change approved unless specific conditions of acceptance are provided in writing within 30 days of receipt of this notice. To do so, contact your local ON Semiconductor Sales Office.

DESCRIPTION AND PURPOSE:

With the acquisition of the voltage regulation and thermal monitoring products business (PTC) of Analog Devices, Inc. (ADI), ON Semiconductor has decided to retain the existing ADI orderable part numbers (model numbers) where possible.

However, there are several ADI part numbers, included in this notification, that exceed the 16 digit part number system limitation in the ON Semi Product Data Management system.

The table below lists the original ADI part number and the corresponding ON Semi part number that will be used for ordering parts from ON Semiconductor. As noted, some of the original ADI part numbers were too long for the ON System so we have indicated which part numbers have changed. All part numbers transitioning from ADI to ON Semiconductor are included in this notification reference the "New ON Part" as the part number customers should be ordering from ON Semiconductor.

This PCN is an orderable part number (model number) notice only.

The manufacturing process and manufacturing locations are not affected by this change. The markings on the parts do not change. The electrical specifications do not change.
