

LD2979 series

Very low drop voltage regulators with inhibit

Features

- Very low dropout voltage (0.2V typ. at 50mA load)
- Very low quiescent current (typ. 500µA at 50mA load)
- Output current up to 50mA
- Logic-controlled electronic shutdown
- Output voltages of 3.0; 3.3; 3.8; 5.0V
- Internal current and thermal limit
- Supply voltage rejection: 63dB (typ)
- Only 1µF for stability
- Selection at 25°C
- Temperature range: -25°C to 125°C
- Package available: SOT23-5L and TO-92

Description

The LD2979 series are very Low Drop regulators available in SOT23-5L and TO-92.

The very low drop-voltage and the very low quiescent current make them particularly suitable for low noise, low power applications and in battery powered systems.

Shutdown Logic Control function is available on five pin version (TTL compatible). This means that when the device is used as local regulator, it is possible to put a part of the board in standby, decreasing the total power consumption.

Order codes

Part number						
	Output voltage					
SOT23-5L	TO92 ⁽¹⁾	TO-92 (Ammopak) ⁽¹⁾	Output voltage			
LD2979M30TR	LD2979Z30TR (2)	LD2979Z30AP ⁽²⁾	3.0 V			
LD2979M33TR	LD2979Z33TR ⁽²⁾	LD2979Z33AP	3.3 V			
LD2979M38TR	LD2979Z38TR ⁽²⁾	LD2979Z38AP ⁽²⁾	3.8 V			
LD2979M50TR	LD2979Z50TR ⁽²⁾		5.0 V			

- 1. Please note that in these cases pins are shaped according to Tape & Reel specifications.
- 2. Available on request.

LD2979 series Diagram

1 Diagram

Figure 1. Schematic diagram

Pin configuration LD2979 series

2 Pin configuration

Figure 2. Pin connections (top view)

Table 1. Pin description

Cumbal	Name and function	Pin number		
Symbol	Name and function	SOT23-5L	TO-92	
V _I	Input voltage	1	3	
GND	Ground	2	2	
INHIBIT	Control switch ON/OFF (1)	3		
NC	Not to be connected	4		
V _O	Output voltage	5	1	

Only for the version in SOT23-5L package: Inhibit pin is not internally pulled-up then it must not be left floating. Connect to a positive voltage higher than 2V to able the device.

LD2979 series Maximum ratings

3 Maximum ratings

Table 2. Absolute maximum ratings

Symbol	Parameter	Value	Unit
VI	DC Input voltage	16	V
V _{INH}	DC Inhibit input voltage	V _{IN}	V
Io	Output current	Internally limited	
P _{TOT}	Power dissipation	Internally limited	
T _{STG}	Storage temperature range	-40 to 150	°C
T _{OP}	Operating junction temperature range	-25 to 125	°C

Note: Absolute Maximum Ratings are those values beyond which damage to the device may occur. Functional operation under these condition is not implied.

Electrical characteristics LD2979 series

4 Electrical characteristics

6 Package mechanical data

In order to meet environmental requirements, ST offers these devices in ECOPACK[®] packages. These packages have a Lead-free second level interconnect. The category of second Level Interconnect is marked on the package and on the inner box label, in compliance with JEDEC Standard JESD97. The maximum ratings related to soldering conditions are also marked on the inner box label. ECOPACK is an ST trademark. ECOPACK specifications are available at: www.st.com.
