Description

The SMS3925-040LF is a plastic packaged, surface mountable medium barrier Schottky diode designed for sensitive detector applications up to 10 GHz. The low capacitance of this diode (0.35 pF) combined with its low total resistance (10 Ω typical at 10 mA) make the SMS3925-040LF particularly well suited for sensitive detector circuits and medium-drive mixer circuits.

The SMS3925-040LF is also available as a small footprint SC-79 (SMS3925-079LF).

Table 1. SMS3925-040LF Absolute Maximum Ratings

Parameter	Symbol	Minimum	Maximum	Units
Reverse voltage	V_R		40	V
Forward current	I_F		50	mA
Dissipated power @ 25 °C	P_D		350	mW
Solder interface temperature	T_S	-40	+85	°C
Storage temperature	T_{STG}	-65	+150	°C
Junction temperature	T_J		+175	°C

Note: Exposure to maximum rating conditions for extended periods may reduce device reliability. There is no damage to device with only one parameter set at the limit and all other parameters set at or below their nominal value. Exceeding any of the limits listed here may result in permanent damage to the device.

CAUTION: Although this device is designed to be as robust as possible, Electrostatic Discharge (ESD) can damage this device. This device must be protected at all times from ESD. Static charges may easily produce potentials of several kilovolts on the human body or equipment, which can discharge without detection. Industry-standard ESD precautions should be used at all times. The SMS3925-040LF is rated as a Human Body Model (HBM) ESD Class 1B device.

Package and Handling Information

Instructions on the shipping container label regarding exposure to moisture after the container seal is broken must be followed. Otherwise, problems related to moisture absorption may occur when the part is subjected to high temperature during solder assembly.

The SMS3925-040LF is rated to Moisture Sensitivity Level 1 (MSL1) at 260 °C. It can be used for lead or lead-free soldering. For additional information, refer to the Skyworks Application Note, *Solder Reflow Information*, document number 200164.

Care must be taken when attaching this product, whether it is done manually or in a production solder reflow environment. Production quantities of this product are shipped in a standard tape and reel format.
