

# SERIES ST1510

## 0-5 Vdc FLUSH DIAPHRAGM PRESSURE TRANSDUCER

### DESCRIPTION

The STI Series ST1510 is a small, accurate, reliable flush diaphragm pressure transducer for measuring dynamic and static pressures. Available in absolute, sealed gage, or true gage zero pressure reference, the unit is entirely welded of stainless steel. Features of design include long term stability, low sensitivity to shock and vibration, wide temperature range, excellent response to transient pressures, infinite resolution and built in over-pressure protection.
