

Non-Magnetic Connectors & Cable Assemblies

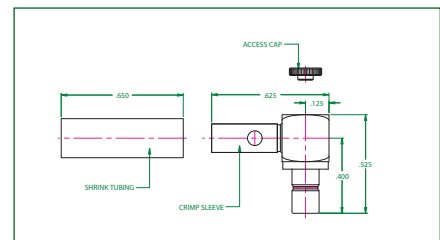

Made of totally non-magnetic materials, Voltronics supplies a line of connectors and cable assemblies for magnetic resonance applications. We stock the line of SMB connectors shown below for quick shipment. We also supply special connectors, made especially for your application. In its ISO9001 approved facility, our partner utilizes lot traceability and exacting process controls to make connectors that will consistently meet your requirements. Please consult our factory for your high performance connector needs.

PC Mount Plug
NM 3420 - 0031 - 5400

Straight Jack
NM 3500 - 1630 - 5400

Right Angle Jack
NM 3501 - 1630 - 5400

Reliability Guaranteed

All products undergo 100% functionality verification. Test capabilities to 1 GHz encompass VSWR, loss, attenuation, delay, phase matching and TDR measure-

CONNECTOR SERIES		PART NUMBER
