

High Power Fixed Attenuators (Radiator built-in)

AT-1000 and AT-1100 Series

■ Features

1. Small Size and Economical

Beryllia is used for the material of the resistance element to enable the termination to be of small size and low cost.

2. Connectors Used

In the coupling portion, the AT-1000 Series has an SMA type plug-jack and the AT-1100 Series has an N type plug-jack.

3. High Reliability

These attenuators show stable characteristics for environments of varying temperature, humidity, and gases.
