

High Power Fixed Attenuators (Heat sink Mounting Type)

AT-1200 and AT-1300 Series

■Features

1.Small Size and Economical

Beryllia is used for the material of the resistance element to enable the attenuation to be of small size and low cost.

2. High Power Capacity

Mounting these attenuators to a heat sink permits the AT-1200 Series to be used at up to 30 W and the AT-1300 Series to be used at up to 50 W.

3. High Reliability

These attenuators show stable characteristics for environments of varying temperature, humidity, and gases.
