The EXB30 Dual series are isolated dual positive-output dc-dc converters. The products are designed using a high-efficiency synchronous rectification topology. They feature two independent fully regulated outputs, which are individually trimmable. The EXB30 Dual employs Dynamic Current Allocation such that maximum current can be drawn from either output with a total output current capability of 6 A. No minimum load is required for either output. In addition, these products incorporate a tracking feature such that both outputs rise together with their output differential never exceeding 0.7 Volts during start-up. A remote ON/OFF and latching overvoltage protection for both outputs are included as standard. These latches are enabled by default, but can be disabled by the user.

2 YEAR WARRANTY

All specifications are typical at nominal input, full load at 25 °C unless otherwise stated

Notes

- Latching OVP response time is 1 ms (typical). OVP latch is reset by toggling remote ON/OFF or by recycling the input voltage.
- Figures are percentage of minimum input voltage.
- Rshort $\leq 20 \text{ m}\Omega$.
- User must provide recommended fuses in order to comply with safety approvals.
- Maximum continuous output power.
30 Watts for D05-3V3J models
20 Watts for D3V3-2V5J models.
- Maximum temperature on hot spots not to exceed 120 °C. See Application Note 109 on our website for details.
- The 'J' suffix indicates that these parts are Pb-free (RoHS 6/6) compliant. TSE RoHS 5/6 (non Pb-free) compliant versions may be available on special request, please contact your local sales representative for details.
- NOTICE: Some models do not support all options. Please contact your local Artesyn representative or use the on-line model number search tool at <http://www.artesyn.com/powergroup/products.htm> to find a suitable alternative.

EXTERNAL OUTPUT TRIMMING

All models can be externally trimmed by $\pm 11\%$ using either method shown below.

CAUTION: Hazardous internal voltages and high temperatures. Ensure that unit is not user accessible.
