

### Specification

### NT200 . NT200PK

All exposed cast aluminum components are made of non corrosive pure aluminum copper free (Aluminum is less than .1% copper content.#356 alloy.)

Finish: All polyester powder baked coatings preceded with a 5 baths preparation process. Meets military grade MIL-C781706 with a 2000 hours salt spray test.

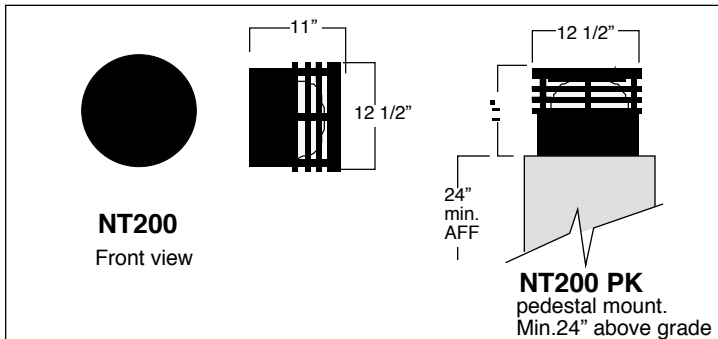

- Pulse rated medium base porcelain socket.
- 75W/600V thermoplastic compact fluorescent socket.
- One-piece molded silicone gasket with memory retention.
- High power factor CWA ballast. Or 98% P.F. electronic smart ballast with end of life detection for compact fluorescent.
- All stainless steel hardware.
- All Moving and removable parts are sealed with a memory retention silicone gasket.

- 1- Closed cast aluminum housing.
- 2- Set of three cast aluminum interlocked louver blades.
- 3- Borosilicate frosted glass diffuser with internal concentric reinforcement prismatic pattern.
- 4- One piece cast aluminum front light shield.
- 5- Semi-specular aluminum reflector, with horizontal lamp position to provide uniform light on the diffuser.

### Photometry

Separate updated technical specification sheets with related models and light sources with I.E.S formatted photometry are available on [www.luminis.com](http://www.luminis.com).

### Certification

UL. Wet Location.

### Mounting

Max. Max. weight: 27 lbs. Installation: Mounts over a standard 4" octagonal electrical box with 3 1/2" c/c mounting holes.

For options details and specifications, please refer to page 72
