

HSH2000NIEO

Lamps for Photolithography

Description

PerkinElmer Optoelectronics is a leading manufacturer of mercury short arc lamps ranging in output power from 1000 to 8000 watts. These lamps are used in the production of printed circuit boards, liquid crystal displays and semiconductors. The HSH Series lamps are used worldwide in microlithography systems manufactured by ASML, Canon, GCA, Nikon, Karl Suss, Ultratech Stepper, and SVG. With extremely high stability, uniform output distribution and extended lamp lifetimes, the HSH Series has become the lamp choice of many of the world's leading semiconductor manufacturers.

PerkinElmer has been a leading manufacturer of high intensity arc lamps for more than 30 years and is a premier lamp supplier for solid state lasers, medical equipment, NASA space systems and microlithography. PerkinElmer has steadily advanced lamp performance from 1000 watts to 8000 watts. With the introduction of new materials and proprietary manufacturing processes, we have extended lamp lifetimes from several hundred

hours to more than two thousand hours. The HSH Series provides longer lifetimes, outstanding uniformity, and excellent spectral quality which results in increased throughput, reduced downtime and an overall reduction in the cost of ownership.

Applications

- Microlithography

HSH2000NIEO

Operational Specifications

Description	Nominal	Range
Power	1750 watts	
Current	67 amps (DC)	60-76 amps (DC)
Voltage	26 volts (DC)	23-29 volts (DC)
Current Ripple	3%	
Temperature (at base)	220°C (max)	
Lifetime	2500 hours	

Dimensions

Physical Specifications

Description	Specification
Arc Gap	4.5 mm (max)
Anode Base	27 mm Dia (M12-P1.75)
Cathode Base	27 mm Dia and Cable

Spectral Output

Typical Performance Graph

Notes

- Lamp must be operated with cathode end down and anode end up. Inclination of lamp axis to vertical must not exceed 10°.

Part Number References

Used In	Nikon NSR-2005 i8
Replaces	SUV-2000NIL

PerkinElmer welcomes inquiries about special lamps. We would be pleased to discuss the requirements of your application and the feasibility of designing a lamp specifically suited to your needs.

For more information e-mail us at opto@perkinelmer.com or visit our web site at www.perkinelmer.com/opto.
