## Medium Power Differential Line Driver

The EL1511 is a dual operational amplifier designed for customer premise line driving in DMT ADSL solutions. This device features a high drive capability of 360mA while consuming only 7.5mA of supply current per amplifier and operating from a single 5V to 15V supply. This driver achieves a typical distortion of less than -85dBc, at 150kHz into a  $25\Omega$  load. The EL1511 is available in the thermally-enhanced 16-pin SO (0.150") and a 16-pin QFN (4x4mm) packages. The EL1511 is specified for operation over the full -40°C to +85°C temperature range. Electrical characteristics are given for typical 15V supply operation.

The EL1511 has two control pins,  $C_0$  and  $C_1$ , which allow the selection of full  $I_S$  power,  $\frac{3}{2}$ - $I_S$ ,  $\frac{1}{2}$ - $I_S$ , and power-down modes.

The EL1511 is ideal for ADSL, SDSL, and HDSL2 line driving applications for single power supply, high voltage swing, and low power.

The EL1511 maintains excellent distortion and load driving capabilities even in the lowest power settings.

## **Features**

- Drives up to 360mA from a +15V supply
- $24V_{P-P}$  differential output drive into  $25\Omega$  and  $26V_{P-P}$  differential output drive into  $100\Omega$
- -85dBc typical driver output distortion at full output at 150kHz
- Low quiescent current of 3.5mA per amplifier at ½-I<sub>S</sub> current mode
- · Disable down to 1.5mA
- · Pb-Free available (RoHS compliant)

## **Applications**

- ADSL CSA line driving
- · ADSL full rate CPE line driving
- · G.SHDSL, HDSL2 line driver
- · Video distribution amplifier
- · Video twisted-pair line driver

## Ordering Information

PART NUMBER	PACKAGE	TAPE & REEL	PKG. DWG. #

NOTE: Intersil Pb-free products employ special Pb-free material sets; molding compounds/die attach materials and 100% matte tin plate termination finish, which are RoHS compliant and compatible with both SnPb and Pb-free soldering operations. Intersil Pb-free products are MSL classified at Pb-free peak reflow temperatures that meet or exceed the Pb-free requirements of IPC/JEDEC J STD-020.

All Intersil U.S. products are manufactured, assembled and tested utilizing ISO9000 quality systems. Intersil Corporation's quality certifications can be viewed at www.intersil.com/design/quality
