

KILOVAC EV200 - 200/250 Amps ("Czonka III")

Make & Break Load Switching

Features:

- **Low Cost** - lowest price sealed relay in the industry with its contact rating
- **Highest contact rating for its size** - 200/250 A carry, 2,000 A interrupt at 320 Vdc.
- **Optional Auxillary Contact** - Easy monitoring of power contact position
- **Built-In Coil Economizer** - Only 1.7 W hold power @ 12 Vdc making it ideal for battery powered systems. Models are available requiring external coil economizer for large volume applications
- **US and Canadian UL Recognized** - UL File No. E208033
- **CE Marked** for EC Applications
- **AIAG QS9000**, Design, Built & Approved
- **Hermetically Sealed** - Intrinsically safe, operates in explosive & harsh environments like salt, moisture, dust with no oxidation or contamination of coils or contacts providing stable contact resistance over years of use, including long periods of non-operation
- **Small & Lightweight** - smallest sealed relay in the industry with its current rating
- **No Coil Back EMF** - Built-in coil economizer limits back EMF to zero volts
- **Versatile Coil Connection** - Flying leads or optional connectors
- **Multiple use Applications** - Ideal for battery switching & back-up, DC voltage power control, circuit protection and safety
