How the Splash Proof System Works

Plug:

Receptacle:

1. Make sure connector cap is in unlocked position

2. Insert crimped terminal into wire-end rubber seal hole and push the terminal in until you hear it click

3. Tug on the wire to confirm proper insertion of the terminal. Use "Cap Fitting Tool" to seat the cap into the plug and receptacle

Check and confirm that you can see more than half of cap lock through Cap Lock window

4. Match direction of lock and insert until the lock snaps in place
