

## Series 805 Mighty Mouse Triple-Start Plug Connector Ordering Information

805-001 and 805-002

**Two Shell Styles:** Integral platform for direct shield attachment using BAND-IT<sup>®</sup> termination system, or accessory thread for attaching a strain relief.

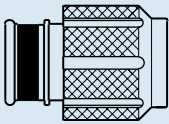

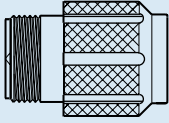

**EMI Ground Spring** provides low shell-to-shell resistance. This nickel-plated beryllium copper spring enables the Series 805 to meet greater than 60 dB shielding effectiveness from 100 MHz to 15 GHz.

**Ratchet Mechanism for Secure Coupling:**

Series 805 connectors feature a spring mechanism in the coupling nut that locks into radial teeth on the plug barrel. This feature allows the Series 805 to stay mated even when under high vibration, without the need for safety wire or torque tools.
