[Printer-friendly format](#) **3M™ EMI Copper Foil Shielding Tape 1181, 1/4 in x 18 yd (6.35 mm x 16.5 m), 36 per case**

On a 3 inch paper core, this easily die-cut, solderable 1.4 mil smooth copper foil tape has a conductive adhesive. Its acrylic adhesive has good resistance to heat, oxidation, solvents and oils. It is UL 510 flame-retardant and ideally suited for static charge draining, grounding and a variety of EMI shielding applications including shielding cables for motors, cables, cabinets and components.
