April 18, 2011

To: All customers using the ANT-2.4-WRT-UFL Antenna
Re: Connector compatibility notification

Dear Customer,

Linx Technologies is announcing that the ANT-2.4-WRT-UFL antenna will be supplied with a connector that is compatible with both UFL and I-PEX MHF series connectors.

Antennas assembled with this connector meet all published specifications and production test parameters.

The physical form of the mating connector may vary in the wire crimp area, depending upon the connector used.

Product Change Notification ANT-2.4-WRT-UFL

PCN No: LPCN-110418-1

Publish Date: April 18, 2011

Type of Change

Connector change

Products Affected

ANT-2.4-WRT-UFL

Description of Change

The antenna will be supplied with a mating connector that is compatible with U.FI and I-PEX MHF series connectors.

Reason for Change

Improve production lead time and provide sourcing alternatives for production.

Effect of Change

The physical form of the connector supplied on any given shipment may vary in the area where the connector is crimped onto the cable shield, as shown in Figure 1 below.

U.FI Connector Form Factor

I-PEX MHF Form Factor
