## Model #: B078-101-PS2

### KVM Switch Accessories - NetCommander PS2 Server Interface Module

#### Highlights

- Needed to connect a PS/2 Server to a B070 / B072-Series NetCommander KVM switch via Cat5e cable
- Easy to install; no software needed
- No power supply needed
- Allows a recommended maximum distance of 100ft from KVM to Server via Cat5e cable
- Compact and lightweight design

#### Description

Tripp Lite's NetCommander PS/2 Server Interface Module connects to the HD15 port and PS/2 ports on a computer/server, and converts them to a single RJ45 connector. Ordinary Cat5e patch cables can then be used to connect the computer/server to the switch ports on a Tripp Lite B070 / B072-Series NetCommander Cat5 KVM switch. Use of Cat5e cables frees up space in the installation that would be filled by traditional, thicker KVM cables.

#### System Requirements

- Server or CPU with a HD15 port and (2) PS/2 type connections
- A B070 / B072-Series NetCommander Cat5 KVM Switch
- Cat5e/6 cable; up to 100ft

#### Package Includes

- 1 PS/2 Server Interface Module

#### Features

- Eliminates the need for thicker, heavier KVM cables
- Compact, lightweight design
- Plug and Play; no software required
- No power supply required
- Allows a Server/CPU to be located up to 100ft away from the KVM switch

#### Specifications

OVERVIEW	
Application	Connects a PS/2 computer/server to a B070 / B072-Series NetCommander Cat5 KVM Switch
Model Type	Interface Modules
CONNECTIONS	

<b>Connector A</b>	 RJ45 (FEMALE)
