

12 Universal Insulation Strippers, particularly suitable for Teflon®

12 12 02

12 12 06

- ▶ with new stripping mechanism
- ▶ precise blade shapes prevent damage to the conductor and make it easy to strip difficult insulating materials such as Teflon®, silicone and rubber
- ▶ leaves wire undamaged; even multi-stranded conductors are stripped gently
- ▶ with length stop for constant stripping length during repetitive work
- ▶ 4 replaceable blades
- ▶ smoothly operating mechanism
- ▶ compact design, lightweight construction
- ▶ high operation comfort thanks to handy shape

Model 12 12 02:

- ▶ with additional cable guide for exact positioning of the conductor in the stripping area of the blade

KNIPLEX special

Two pairs of blades (1) cut the insulation to a complete extent. Then the blade pairs move apart, and thus the insulation is removed form-fit (2). The plier opens automatically after the stripping procedure.

12 12 02 with cable guide and length stop

Precise cutting of the insulation to a complete extent

Positive stripping thanks to precise shape of the blades
