## SOLARLOK Part Number Change Notification

A recent Product Change Notification was distributed on this subject. Part numbers for the SOLARLOK couplers sold in the US market have been changed. The new part numbers are form, fit, and functionally identical to the old part numbers for the Americas market.

The old part numbers will continue to be available for sale and will be used in Europe and Asia. The old part numbers will undergo a product change which will result in a new cable seal which handles larger outer diameter wire. The seal will not work with the smaller diameter wire used in the US installations.

Existing inventory of SOLARLOK couplers are fine, and do not need to be returned to TE. For your future orders, the new part numbers listed in the chart below should be used.

Wire Size	Polarity	Gender	Insulation diameter 4.5 to 6.0 mm; 0.177 to 0.236 in.	Insulation diameter 5.5 to 8.0 mm; 0.216 to 0.315 in.
