Protect data with 256-bit AES encryption and 100% privacy.

Assembled
in the USA

Kingston's DataTraveler® Vault — Privacy Edition USB Flash drive is designed for organizations that require a secure way to store and transfer portable data. One hundred percent of the stored data is secured by hardware-based, 256-bit AES encryption to guard sensitive information in case the drive is lost or stolen. And its durable, aluminum casing provides added protection.

Assembled in the U.S., DataTraveler Vault — Privacy Edition fully supports Mac OS and is backed by a five-year warranty, 24/7 tech support and legendary Kingston® reliability.
