* Refer to page 65 and 66 for schematics.

ý Special order only; contact Switchcraft.

1 Many jacks are offered with MIL specifications. Other jacks are made of MIL-spec materials but do not have MIL approval because no MIL type numbers have been assigned.

2 MT-Jax have nickel-plated copper alloy bushing. WEco equivalent jacks have plain copper alloy bushings (except WEco Number 221E, which has nickel-plated copper alloy bushing).

3 Mating plugs and patch cords are contained in the catalog.

4 Adjust non-short tip-ring.

5 Adjusted for plug M642/1-1 or M642/1-2.

6 Actuates differently (insulated "A" off ring instead of tip).

7 Same as MIL type M641/2-3 except with offset ground lug.

8 Same as MIL type M641/3-1 except with offset ground lug.

9 Same as MIL type M641/3-2 except with offset ground lug.

10 When mounted on "A" frames, stacks are too high to fit in standard panels with .625 inches horizontal space add prefix "C" to part number to order jacks with "C" frame.
