

500WFR series

Dual Output DC/DC Converter

DESCRIPTIONS

The 500WFR series dual output power modules are 5 to 6 watts high efficiency, low profile dc-dc converters that operate over a wide input voltage range of 4.5 - 9 VDC, 9 - 18 VDC, 18 - 36 VDC and 36 - 72 VDC and provide precisely regulated output voltages of $\pm 5V$, $\pm 12V$, and $\pm 15V$.

The $-25^{\circ}C$ to $+71^{\circ}C$ operating temperature range makes it ideal for data communication equipment, mobile battery driven equipment, distributed power systems, telecommunication equipment, mixed analog/digital subsystems, process/machine control equipment, computer peripheral systems and industrial robot systems.
