

RF PIN Diodes - Dual, Series in SOT-23

Description

Characterized by low reverse Capacitance the PIN Diodes BAR64V-04 was designed for RF signal switching and tuning. As a function of the forward bias current the forward resistance (rf) can be adjusted over a wide range. A long carrier life time offers low signal distortion for signals over 10 MHz up to 3 GHz. Typical applications for this PIN Diodes are switches and attenuators in wireless, mobile and TV-systems.

Features

- High reverse Voltage
- Small reverse capacitance
- High breakdown voltage

Applications

For frequency up to 3 GHz
 RF-signal tuning
 Signal attenuator and switches
 Mobile , wireless and TV-Applications

Mechanical Data

Case: Plastic case (SOT-23)
Weight: approx. 8.1 mg
Packaging Codes/Options:
 GS18 / 10 k per 13" reel (8 mm tape), 10 k/box
 GS08 / 3 k per 7" reel (8 mm tape), 15 k/box

Parts Table

Part	Ordering code	Marking	Remarks
BAR64V-04	BAR64V-04-GS18 or BAR64V-04-GS08	D4	Tape and Reel

Absolute Maximum Ratings

T_{amb} = 25 °C, unless otherwise specified

Parameter	Test condition	Symbol	Value	Unit
Reverse voltage		V _R	100	V
Forward current		I _F	100	mA
Junction temperature		T _j	150	°C
Storage temperature range		T _{stg}	- 55 to + 150	°C

Electrical Characteristics

T_{amb} = 25 °C, unless otherwise specified

Parameter	Test condition	Symbol	Min	Typ.	Max	Unit
Reverse voltage	I _R = 10 μA	V _R	100			V
Reverse current	V _R = 50 V	I _R			50	nA
Forward voltage	I _F = 50 mA	V _F			1.1	V

Parameter	Test condition	Symbol	Min	Typ.	Max	Unit
Diode capacitance	$f = 1 \text{ MHz}, V_R = 0$	C_D		0.5		pF
	$f = 1 \text{ MHz}, V_R = 1 \text{ V}$	C_D		0.37	0.5	pF
	$f = 1 \text{ MHz}, V_R = 20 \text{ V}$	C_D		0.23	0.35	pF
Forward resistance	$f = 100 \text{ MHz}, I_F = 1 \text{ mA}$	r_f		10	20	Ω
	$f = 100 \text{ MHz}, I_F = 10 \text{ mA}$	r_f		2.0	3.8	Ω
	$f = 100 \text{ MHz}, I_F = 100 \text{ mA}$	r_f		0.8	1.35	Ω
Charge carrier life time	$I_F = 10 \text{ mA}, I_R = 6 \text{ mA}, i_R = 3 \text{ mA}$	t_{rr}		1.8		μs

Typical Characteristics ($T_{amb} = 25^\circ\text{C}$ unless otherwise specified)

Ozone Depleting Substances Policy Statement

It is the policy of **Vishay Semiconductor GmbH** to

1. Meet all present and future national and international statutory requirements.
2. Regularly and continuously improve the performance of our products, processes, distribution and operating systems with respect to their impact on the health and safety of our employees and the public, as well as their impact on the environment.

It is particular concern to control or eliminate releases of those substances into the atmosphere which are known as ozone depleting substances (ODSs).

The Montreal Protocol (1987) and its London Amendments (1990) intend to severely restrict the use of ODSs and forbid their use within the next ten years. Various national and international initiatives are pressing for an earlier ban on these substances.

Vishay Semiconductor GmbH has been able to use its policy of continuous improvements to eliminate the use of ODSs listed in the following documents.

1. Annex A, B and list of transitional substances of the Montreal Protocol and the London Amendments respectively
2. Class I and II ozone depleting substances in the Clean Air Act Amendments of 1990 by the Environmental Protection Agency (EPA) in the USA
3. Council Decision 88/540/EEC and 91/690/EEC Annex A, B and C (transitional substances) respectively.

Vishay Semiconductor GmbH can certify that our semiconductors are not manufactured with ozone depleting substances and do not contain such substances.

**We reserve the right to make changes to improve technical design
and may do so without further notice.**

Parameters can vary in different applications. All operating parameters must be validated for each customer application by the customer. Should the buyer use Vishay Semiconductors products for any unintended or unauthorized application, the buyer shall indemnify Vishay Semiconductors against all claims, costs, damages, and expenses, arising out of, directly or indirectly, any claim of personal damage, injury or death associated with such unintended or unauthorized use.
