ISL9R18120G2 / ISL9R18120P2 / ISL9R18120S3S

18A, 1200V Stealth™ Diode

General Description

The ISL9R18120G2, ISL9R18120P2 and ISL9R18120S3S are Stealth™ diodes optimized for low loss performance in high frequency hard switched applications. The Stealth™ family exhibits low reverse recovery current (I_{RM(REC)}) and exceptionally soft recovery under typical operating conditions.

This device is intended for use as a free wheeling or boost diode in power supplies and other power switching applications. The low $I_{RM(REC)}$ and short t_a phase reduce loss in switching transistors. The soft recovery minimizes ringing, expanding the range of conditions under which the diode may be operated without the use of additional snubber circuitry. Consider using the Stealth $^{\rm TM}$ diode with a 1200V NPT IGBT to provide the most efficient and highest power density design at lower cost

Features

•	Soft Recovery $\dots t_b / t_a > 5.0$
•	Fast Recovery t_{rr} < 45ns
•	Operating Temperature
•	Reverse Voltage

Avalanche Energy Rated

Applications

- Switch Mode Power Supplies
- · Hard Switched PFC Boost Diode
- · UPS Free Wheeling Diode
- · Motor Drive FWD
- SMPS FWD
- · Snubber Diode

Package Symbol

Device Maximum Ratings T_C = 25°C unless otherwise noted

Symbol	Parameter	Ratings	Units
V _{RRM}	Repetitive Peak Reverse Voltage	1200	V
V _{RWM}	Working Peak Reverse Voltage	1200	V
V _R	DC Blocking Voltage	1200	V
I _{F(AV)}	Average Rectified Forward Current (T _C = 92°C)	18	Α
I _{FRM}	Repetitive Peak Surge Current (20kHz Square Wave)	36	Α
I _{FSM}	Nonrepetitive Peak Surge Current (Halfwave 1 Phase 60Hz)	200	Α
P _D	Power Dissipation	125	W
E _{AVL}	Avalanche Energy (1A, 40mH)	20	mJ
T _J , T _{STG}	Operating and Storage Temperature Range	-55 to 150	°C
TL	Maximum Temperature for Soldering		
T_{PKG}	Leads at 0.063in (1.6mm) from Case for 10s	300	°C
	Package Body for 10s, See Application Note AN-7528	260	°C

CAUTION: Stresses above those listed in "Absolute Maximum Ratings" may cause permanent damage to the device. This is a stress only rating and operation of the device at these or any other conditions above those indicated in the operational sections of this specification is not implied.
