Introduction

With a high quality TFT LCD display, TPC-1780H/TPC-1770H is designed with the Intel Core 2 Duo L7400/Intel Celeron M processor as its core. The Intel Core 2 Duo/Intel Celeron M has low power consumption and 1.5/1 GHz operating frequency. This system is fanless although the kernel is powerful. In addition, spindle-free storage makes the TPC-1780H/TPC-1770H a durable and reliable platform. For applications where spindle-free storage is not critical, a fast-access HDD module can be used. The rich I/O portfolio meets diverse requests.
