

**Technical Data**

Output signal distance	digitalTTL, 5V
Connector	Edge connector 48pol. DIN 41612F
Input interface (transducer)	P-Interface
Supply voltage	24VDC +-20%
Current draw	max. 200mA
Operating temperature	0...60°C
Up-Date-Time	1kHz
Interface	Processor unit Digital output 20 Bit parallel Resolution 0,025mm
Features	Resolution 0,025mm, Data Hold, LED function display, ENABLE-Input, bus-compatible
