## Features

- LO Power +13 dBm
- +22dB Compression Point
- Surface Mount
- +32 dBm IIP3
- Up and Down converting
- Tape and reel packaging available

## Description

M/A Com's EFM-1900 uses a novel, patent pending design to achieve very high linearity at low LO drive levels. Typically IP3 performance is +32 dBm with an LO drive level of just +13 dBm . The mixer combines PHEMT devices and carefully matched transformers in a surface mount package which can be used for both up and down converting. It is ideally suited for wireless applications where high linearity is required. Parts are packaged in tape \& reel.
